

perfection every day

CAN YOU IMAGINE HAVING PERFECTLY SHAPED BROWS, FULLER LOOKING LIPS, AND SMUDGE RESISTANT EYE-LINER FROM THE MOMENT YOU WAKE UP?

Claire Price

Whether it's a simple slick of lipstick, a sweep of mascara or a dash of eyebrow pencil, there's no doubt that make-up can boost your confidence.

For some of us, make-up application is essential before we'll leave the house. But with the pressures of modern-day life, looking and feeling your best every day can be difficult.

Fortunately, we've found a solution that countless celebrities already know about – semi-permanent make-up.

With a treatment that's going to last for a long time, you want to know you're in safe hands. You'll find the skill and attention to detail you need with Claire.

THE 'FAME' TECHNIQUE FOR BROWS

"If people are unfortunate enough to be without their eyebrows, this will result in an imbalance in the framework of the face," says Claire.

"The Fame technique that I use is such a precise method, I can effectively reconstruct eyebrows,

replicating each hair on a microscopic level."

The outcome: a realistic and natural-looking result. Such a treatment can give you an overwhelming confidence boost, plus you'll no longer need to spend hours every day pencilling the brows!

The Fame technique can also be used as an anti-ageing solution, therefore realigning the browline.

LIP PERFECTION

Lip blush and full lip colour tint are the way forward for symmetry and fullness of lips.

EYE LINER

Using the implantation of pigments in the lash line is a popular way to achieve a subtle, natural look, mimicking thousands of tiny eyelashes. Additional shadowing of colour can be added for a soft natural liner, or a bolder definite line can be achieved. Just imagine, you could have smudge free eye makeup!

It's not just for convenience that this process is useful – ophthalmologists recommend intra-dermal procedures for those who are allergic to conventional make-up, for those wearing contact lenses, and for alopecia sufferers. ■

TESTIMONIAL

"The FAME technique is a truly fantastic treatment that has saved me lots of time every morning. I'd particularly recommend this for anyone who's over-plucked their eyebrows over the years."

Barbara Lane, Gilwern

A BEAUTY HAVEN

The Claire Price Beauty Clinic offers a wide range of advanced beauty treatments and has been established for more than 13 years. The salon offers state-of-the-art hair removal treatment and is licensed under the Health Care For Wales Inspectorate. You'll also find a nail spa on the premises with OPI products and acrylic gel nails available. For an extra treat, why not choose something for yourself from the selection of products on sale at Claire Price. You'll find top brands including Yankee Candle, Clarins and Guinot, both in the clinic and on the website: www.claireprice.com
