TURN BACK TIME WITH THE MOST WANTED ANTI-AGING TREATMENT AT **CLAIRE PRICE BEAUTY CLINIC**

Claire Price

Time, stress, pollution, the environment – there's no end to the number of barriers to looking your very best these days.

But they don't stand a chance against some of the most innovative beauty technologies that are available now.

At Claire Price Beauty Clinic, you'll find only the latest and most up to date treatments, all delivered within a pleasant and relaxed atmosphere in the beautiful town of Abergavenny.

The new IPL L900 intense pulsed light skin rejuvenation and hair removal system, for example, has just been launched, offering painless, non-invasive hair removal with the added bonus of skin rejuvenation to help reduce pigmentation, thread veins, fine lines, acne, rosacea and open pores.

Claire Price herself is a specialist in semi-permanent make up too. Can you imagine having perfectly shaped eye-

brows, fuller looking lips, or smudge resistant eye liner? Look wonderful all day, every day without the need of having to apply, reapply and remove your make up, always remaining

beautiful, convenient, forever?

This is now possible with medically approved 'make up of the future'. Colours are custom blended to compliment your skin tone, eye and hair colour giving a soft and natural appearance.

For the nails, Axxium's long lasting gel nail polish by OPI is perfect for these busy times we live in. The unique formula means you won't have to get your colour redone as often.

Of course, every girl likes something new to take home with her, and there are always plenty of new products at Claire Price Beauty Clinic, from top brands like Clarins, Guinot, Crystal Clear and St Tropez, as well as a new costume jewellery range from the Jewellery Boutique.

It's no wonder there is such a loyal customer base - they know how to look after people. And they run a client loyalty scheme. Just lie back and enjoy the experience from highly qualified and dedicated therapists. ■

Testimonial

Actress and model Jo-Emma Lawin (pictured above) was one of the first customers to try the IPL L900. She said: "I've been going to Claire Price for a few years now, so I was looking forward to trying the new rejuvenation treatment. I booked a course of four, but even after one treatment I could see a difference – my face looked fresher and my skin tone more even. Best of all, it didn't hurt one bit – in fact, I found it a really pleasant experience!"
