BEAUTIFUL BROWS CAN BE YOURS AFTER A VISIT TO **CLAIRE PRICE**, THE EXPERT IN TOTALLY NATURAL LOOKING SEMI-PERMANENT MAKE-UP

Whether it's a simple slick of lipstick, a sweep of mascara or a dash of eyebrow pencil, there's no doubt that make-up can boost your confidence.

Claire Price

For some of us, make-up application is essential before we'll leave the house.

But with the pressures of modern-day life, looking and feeling your best every day can be difficult.

Fortunately, we've found a solution that countless celebrities already know about - semi-permanent make-up.

With a treatment that's going to last for a long time, you want to know you're in safe hands. You'll find the skill and attention to detail you need with Claire.

Claire set up her beauty clinic 13 years ago, and was trained in the art of semi-permanent in London's renowned Harley Street.

How 'Fame' technique can enhance your brows

"If people are without their eyebrows they can really lose the framework to their face. The Fame technique that I used is such a precise method, I can effectively reconstruct eyebrows, replicating each hair on a microscopic level"

The outcome is a realistic and natural-looking result. Such a treatment can give you an overwhelming confidence boost, plus you'll no longer need to spend hours everyday pencilling the brows, and nobody will know! The Fame technique can also be used as an anti-ageing solution, therefore helping to reposition the browline.

EYELASH LINE ENHANCEMENT

This is a fantastic technique for enhancing your eyes, creating the appearance of longer-looking fuller lashes. Ideal as we grow older as our lash line recedes leaving us with sparse-looking eyelashes, this method is used on both top and bottom eyelashes.

LIP PERFECTION

Lip brush and full lip colour tint are the way forward for symmetry and fullness of lips.

Testimonial

"It's a truly fantastic treatment that has saved me lots of time every morning. I'd particularly recommend this for anyone who's over-plucked their eyebrows over the years."
